KAI EBRON

(954) 815-9624 | look4kai@gmail.com | Pembroke Pines, FL 33029

SUMMARY STATEMENT

Cybersecurity B.S. candidate at FIU and ODNI-funded IC-CAE Intelligence Fellow with hands-on experience in cyber threat intelligence research, networking, and cloud computing. CompTIA A+, Network+, and Security+ certified. Active member of the AWS Student Builder Group, with an AWS-hosted portfolio website and a Raspberry Pi-based travel router built to apply cloud and networking concepts hands-on. Beginner-level Python programmer with a background in high-pressure customer service and emergency response, and a proven record of resolving inquiries efficiently, organizing complex information, and delivering results in fast-paced environments.

EDUCATION

Bachelor of Science in Cybersecurity, Expected June 2028
Florida International University, Miami, FL

CERTIFICATIONS

- CompTIA A+ Certification (2026)
- CompTIA Network+ Certification (2026)
- CompTIA Security+ Certification (2026)

WORK EXPERIENCE

Work-Study Student, January 2025 – April 2026
U.S. Department of Veterans Affairs, Pembroke Pines, FL | Job Type: Part-Time

- Delivered timely information services to students and faculty by researching and resolving VA benefit inquiries, reducing wait times and ensuring accurate guidance on complex eligibility matters.
- Compiled and organized data into reports using Microsoft Office Suite and Google Docs, improving the accuracy and accessibility of records for staff decision-making.
- Guided dependents of veterans through available benefit programs by providing tailored resources, increasing successful access to entitlements they were eligible for.

Pool Attendant, April 2025 – September 2025
Seminole Hard Rock Hotel & Casino, Hollywood, FL | Job Type: Full-Time

- Maintained a clean, safe, and organized pool environment for a five-star resort by responding promptly to guest requests, sustaining high guest-satisfaction standards during peak-volume operations.
- Partnered with operations, security, and housekeeping teams to monitor guest safety and manage high-volume crowds, upholding hotel standards without safety incidents during peak hours.
- Managed towel inventory, lounge setup, and high-profile event preparation, ensuring smooth daily operations and supporting seamless execution of VIP events.

FELLOWSHIPS/PROFESSIONALIZATION TRAININGS

Intelligence Fellow, June 2026 – Present
IC-CAE Intelligence Fellowship (ODNI-funded), Florida International University | Job Type: Fellowship

- Selected for the competitive ODNI-funded Intelligence Community Centers for Academic Excellence (IC-CAE) Fellowship, a workforce development program developing analytic talent for U.S. Intelligence Community agencies, distinguishing candidacy among a limited cohort.
- Conducting independent cyber threat intelligence research by producing analytic assessments that link state-sponsored cyber operations to national security implications and strengthen understanding of emerging threats.

PROJECTS

Salt Typhoon & Volt Typhoon Policy Research — Academic Project, 2026

- Authored a policy paper (INR 3133) analyzing the Salt Typhoon and Volt Typhoon state-sponsored cyber campaigns.
- Synthesized open-source threat intelligence and government reporting into structured analysis for a policy audience.

AWS-Hosted Portfolio Website — Personal Project, 2026

- Built and self-hosted a personal portfolio website on AWS, served through an Amazon CloudFront distribution.
- Deployed AWS infrastructure and planned custom domain/DNS management through Cloudflare for hands-on cloud skills.

Raspberry Pi Travel Router — Personal Project, 2026

- Designed and built a fully functional portable Wi-Fi travel router on a Raspberry Pi, configuring dual wireless interfaces to bridge an untrusted network (WAN client) to a private, secured access point (AP).
- Implemented core networking services from the ground up, using OpenWRT for access point creation, DHCP/DNS, and NAT/packet forwarding, deepening hands-on understanding of Linux networking fundamentals.

PROFESSIONAL ORGANIZATIONS

AWS Student Builder Group, Member | Florida International University

- Active member engaging with peers on AWS cloud computing fundamentals and hands-on builder activities.

TECHNICAL/PROFESSIONAL SKILLS

Technical: Hardware/Systems, Linux, Windows, macOS, Networking, VirtualBox, Python, AWS/Cloud Computing (CloudFront), Raspberry Pi
Professional: Troubleshooting, Customer Service, Collaboration, Communication, Analytical Research, Report Writing
